DEDICATION

This booklet is lovingly dedicated to the Beloved Lord Maitreya Who (together with Lord Gautama) responded to the call of Sanat Kumara and endeavored to prepare to become The Buddha for the planet Earth. Due to certain personal experiences, Lord Gautama qualified first to become The Buddha for the planet Earth. Contrary to human consciousness, Lord Maitreya rejoiced in Lord Gautama's Appointment!

Just recently Lord Gautama accepted the Office of Lord of The World and Lord Maitreya (by keeping on His application) has qualified to become the New Buddha for the Earth! For centuries of time, Lord Maitreya acted as World Teacher. Now, Beloved Kuthumi, His faithful Disciple, and the Ascended Master Jesus, have assumed the Office of World Teachers. We do decree that all who read this booklet shall receive the illumination and blessings of Lord Maitreya and His Successors and become successful, God-Victorious World Teachers on the planet Earth Today! Thus Shall God's Holy Will be done for and through all Earth's evolutions! So be it!

"Teachings of
The Brothers of The Golden Robe"
By
Beloved Lord Maitreya
(September 1954 A.D.)

My dearly beloved children,
I LOVE YOU! Oh, can you feel the pressure, the sincerity and the depth of My Love! - I - Who have followed the progress of your course of evolution from the instant you were breathed forth as shining beings from out of the bosom of your own God Parents, through the sad day when you chose to build out of yourselves the shadows in which you find yourselves enmeshed - shall lovingly draw you back into the realization of your own Godhead "I AM" until you stand again triumphant, magnificent, FREE - master over the God energy which is yours to enjoy and, living for love, through faith, you will expand the borders of God's Kingdom, fulfilling the destinies of your individual lives; thus making the universe to which you belong a sweeter - a more magnificent and glorious place in which to live!

Many universes are represented in the schoolroom of Earth today - Guests from so many Solar Systems Blessing us with Their Presence!

Looking at you and remembering the glory you knew "in the beginning, before the world was" and anticipating the glory you <u>shall</u> know while the world yet <u>is,</u> My heart is filled with gratitude to light for the opportunity of being a part of your development - for being able to contribute the energies of My life to wrap you in love - love in which there is no self-seeking - love in which there is only the

desire to breathe upon your Divine pattern and your Heart Flame with such an intensity of faith and pressure that that pattern and Heart Flame of Mine - rushing forward to meet yours, may manifest through you the full God-dignity, and full God-mastery which is your heritage.

Recognizing each of you as a prince and princess of the Sacred Fire; incarnated Angels, potential Devas and God Beings, abiding yet on Freedom's Star, because of your love for the beings who chose to develop hereon, I decree that your sojourn shall be one of happiness and your service one of individual freedom in remembrance of your Divine Identity; through the conscious invocation of your powers; and the largess of the distribution of the gifts of your own precipitating Presence to those of mankind, imprisoned Angels, the elemental kingdom and every living thing seeking a Savior, seeking teachers, and awakened lifestreams to show all life the way back Home.

Ah, My children, blessed, indeed, are those of you whose hearts have signified an interest in becoming great way-showers to the children of Earth! Blessed is the light that is glimmering even now through the folds of your individual soul-selves - that motivating power that impels you forward, (no matter what the pressures of your individual creations) and has kept your feet upon the pathway of Light thus far!

I represent, in the Celestial Hierarchy, the Office of World Teacher.* This Office is held, beloved ones, for approximately fourteen thousand years by one God-Intelligence;

*Note: Beloved Lord Maitreya has since been elevated to the Office of Reigning Buddha filling Lord Gautama's place.

then a succeeding Intelligence takes over the Office as the preceding World Teacher avails Himself of other endeavors in promoting the Will of God throughout the universe.

During a fourteen thousand year cycle a World Teacher has seven major opportunities of two thousand years each in which to develop a spiritual education and religion which will bless the mankind evolving upon the planet for that period. The World Teacher, working with the Chohan (Who in each two thousand year cycle is the Channel through which the activity, radiation and world religion will flow) endeavors to develop a dual release of blessings that will stimulate the particular spiritual centers which each One of the Seven Rays successively nourishes during His reign of two thousand years as Chohan of one of the Seven Rays in this grand cycle of fourteen thousand years.

The dual activity developed by the World Teacher and the Chohan is a method which draws a particular radiation that both nourishes the soul light within the heart and encourages the release of the spiritual Self. This, in time, awakens and purifies the soul and develops a system of spiritual education and knowledge whereby the conscious outer mind of the people may be brought to cooperate with the spiritual movement of the current cosmic hour.

No great Teacher - no great Exemplar to the planet Earth or any other planet has ever been successful who has not employed the dual activity of creation (thought and feeling). The activity of developing the conscious mind through the understanding of the outer mind stimulates the cooperation and the obedience of students of the Law of Life. When they are made aware of the reason for the activities in which

their lives are engaged, they will put forth a much happier and more constructive radiation of thought, feeling and action into the performance of the spiritual ritual. However, if the knowledge is not coupled with a conscious radiation of love and an invocation for spiritual grace from the Beings and Powers Who are God-free to develop the seeds of knowledge and to expand the spiritual nature in the feeling world, the prescribed religion would fail to fulfill its full purpose.

You, who are to be the teachers of the New Age - who represent the Ascended Master Saint Germain - whose destinies were and still are to be the shepherds of the race - must develop dexterity of thought and control of feeling...You must couple the most eloquent presentation of the Law with a spiritual application that will stir the hearts and the God-centers within the soul or your teachings will not render the service for which you were born. In like manner, those who are tremendously devotional and are able to evoke and invoke tremendous stirrings of the emotional nature (particularly through services to those whose mental bodies are not in full control) they, too, fail to perform the full service of a teacher if they do not couple training in control of the two activities, (thought and feeling).

I have brought with Me into the atmosphere of Earth the Great Elohim Cyclopea (Vista) Whose concentrated Power of concentration upon spiritual endeavors is a gift which enables you to hold within the mind the Divine design and pattern which you wish to present in your classwork. I have also invited the Mighty Archangel Jophiel Whose radiation of Illumination stirs the spiritual aspirations and the up-reaching of the feeling world of the human race towards the

Godhead. As you can realize the importance of this dual activity of the mental and feeling consciousness (which represents the masculine and feminine nature) you will see by introspection which particular force you should develop within yourself in your desire to teach the peoples of Earth in the days and years that are to come.

You are not here by happenstance, dear ones! We have not come from Cosmic heights to speak to a handful of human beings just for individual unfoldment! We are endeavoring to consciously train individuals who have volunteered to expose themselves to the radiation of the Ascended Masters, in order that you, in turn, may become the firebrand that will carry the Light of Truth and Illumination through the length and breadth of every land. You do not yet see the opportunities that will arise ahead of you...You do not see the great numbers of people who will, from time to time, place you in a position where you will be called upon to transmit the knowledge and radiation you received in these quiet and blissful hours! I say to you now - prepare well for that day! Those who are within the radiation of the Ascended Masters, and are privileged to sit at Their feet - those to whom We have given Our instruction and Our radiation are the ones who will be called upon in the future and you Beloved Ones, will, in time to come, remember My words!

Remember always, when you are dealing with a great number of confused individuals who are emotionally disturbed, be sure, before you attempt to reach their minds, to make your calls to the great Archangels and particularly to the mighty Jophiel to quiet the feelings of your hearers. Make application on the feeling worlds preceding your endeavor to reach their

reasoning faculties. This will assist you in blanketing the choatic energy that is rampant with an outpouring of peace. Then, as you speak with authority and present the Law which is to be applied for the protection, the supply, the peace of mind required in any emergency, it will anchor into the peoples' consciousness and bear fruit.

I am calling your attention to this for a specific purpose - You cannot reach the mind of a man whose feelings are in violent agitation. Practice in your Group work by consciously making application for the quieting of the feelings of the students before you attempt to inspire them by Our words and you will see the difference in the quality of energy that you will receive in your decrees, your songs, your visualization and your application.

We, Who have spoken from the Ascended Master Realms for years now, always come into a room long before We are privileged to address you. We use this method of the Law to bathe the Group in the radiation of Our love, in the peace of Our feelings, in the quieting of the general vibratory action in order to insure the best reception into the outer minds and feelings of each one by the quieting of the outer vacillating mind.

Beloved Sanat Kumara asked Me to speak with you, and "I AM" come now to give you an understanding of the "I AM" consciousness, the soul and the personality. I do this with the hope that during this time (which the Ascended Master Saint Germain has dedicated to the removal of certain cups, forms and focuses of distorted energies in your inner bodies and to the re-dedication of your "I AM" consciousness through the outer self). In the hope that you

can grasp the differentiation and may, more quickly, come to an awareness of that "I AM" Presence of which you have heard so much and which you are to express as quickly as possible for Our sake and for the sake of all mankind.

Beloved ones, will you, each one, feel now, your mental body like a lovely crystal cup offered to Me! See if you can hold it concentrated for a few short minutes upon the pattern as I present it to you! Will you do this in love for Me!

When first you were breathed from out of the bosom of your God Parents, you had an awareness and a realization of your spiritual identity. You felt and thought "I AM". You found yourselves as selfconscious Beings, and in every fibre and cell of your Electronic Presence you realized "I AM" being! As you served in that innocence, sharing the consciousness of the Godhead, sharing the "I AM" consciousness of your God Parents, you knew that Primal Life was yours to use as you chose. You were the Holy Innocents, and Primal Life - exquisite, iridescent, - flowing into the Immortal Victorious Three Fold Flame of your hearts became the possession of your Self-hood. In this innocence you abode, and out of Primal Life you began to create according to that which you saw around you. You lived in a realm close to the Bosom of the Eternal, where there were no forms that were not exquisite - every Angel shining in magnificence - every Master in the dignity of a Christ - every center, in fact, magnificent and perfect. This consciousness of thought began to outpicture what it saw and thus it was that you began to create like that which you saw around you, timidly at first, tiny Cherubic forms or small temples not larger than a finger nail. Then your feelings, enjoying Individualization

and the power of creation, filled those tiny forms until they began to flow out from you into your aura and into the sphere in which you dwelt. You then experienced the joy of individual creation, choosing through free-will that which you cared to design.

All through the inner spheres you passed, and wherever you abode you watched the magnificent Brothers and Sisters in those realms (Who had developed power far beyond your own capacity to create) building stars and galaxies and forming the cosmos. You, in your own small way, using thought, would picturize, and, in learning to use your feelings, would energize and project these little forms - getting stronger and attaining more mastery - with every creation; consciously using the "I AM" creative power in gradual increase as you found the thought and feeling centers obedient to your will. This was the state of innocence, the "Garden of Eden" consciousness wherein you were co-creators with God; where there was no need for the discriminate use of your thought and feeling centers, for there was no distorted pattern, there was no form of temptation, there was nothing destructive that could seize your consciousness and cause you to externalize discord in this garden beautiful.

Now in this Realm of Perfection many beings have always abided. They never chose embodiment, they developed in the higher realms, not desiring the power of creation in the world of form. Some chose to embody on Earth, however! Some brave spirits passed through the entire Seven Spheres of other planets. These were the bold ones who wanted to experiment with the use of light in its fullness and to develop greater dexterity through the drawing of the thought and feeling centers into an atmosphere

where it required more energy to mould their ideas into forms. Some of these applied for the opportunity to embody here on Earth. The closer you are to the heart of God the more quickly does light substance respond to thought and feeling and the easier it is to create. As you pass outward through the Seven Spheres the vibrations of the electronic substance become slower and the energies of the thought and feeling worlds become more reluctant to take form; in other words, the more endeavor and energy one has to put forth to create and sustain a perfect form!

Therefore it was the bold and the strong that went on through the Seven Spheres, developing the power of thought and feeling and the power of precipitation through free will. These then were the spirits who chose to embody on Earth. Let us take this planet, for example, (because the cosmos is too vast for your outer minds to comprehend). These experienced spirits then waited for some Root Manu, until the Earth was habitable. Why? In order to further develop and use the power of thought to make a mould, the use of feeling to vitalize that and also to learn the power of radiation through a physical body of a slower vibratory action to lower that mould into physical form. It was then ordained that they should be invited by a Root Manu into a beautiful, very refined Earth body and complete the cycle of externalization by making the etheric substance of the Earth into the pattern and form of the Divine ideas that they received from the Father-Mother God. Thus did the Manu of the first Root Race and its sub-races come forth.

Now, observe! The Earth was created by the Elohim* (Beings so beautiful that it would*

Note: (See full description of such creation in work of the Seven Mighty Elohim Speaks. Order from The "Bridge to Freedom",P.O.Box 335,Phila.,Pa.

be difficult for your minds to picture Them. The Sun of even pressure in Its center(controlled by God Pellour) sent forth a radiation that was visible as a soft glow beneath the Virgin Earth - beneath the grass and flowers. The flowers were like flame...There was no decay in nature at the end of its seasons of expression - the manifestations just disappeared. Beloved Amaryllis, Virgo, Neptune, Aries and all the Beings of Nature had created such a magnificent planet that when the Spirit Sparks and Their Guardians came there was little difference between the Earth in Its beautiful, pure virgin state and the gorgeous Heavens in which they had dwelt hitherto - except a lowering in the rate of vibratory action.

As they completed the condensation of energy, these lovely Innocents, using the "I AM" consciousness, took Primal Life-Energy, and, holding up the cup of their minds to their "I AM" Presence, received the Will of God in the form of ideas. They were then able to mould these ideas each day, fill them with feeling and love and use the faculties of their feeling worlds to externalize them. They built on Earth even as they built in Heaven. The first Golden Age manifested the same temples, the same exquisite perfection that these beings knew at inner levels. There was not one in that round or cycle of fourteen thousand years who did not complete in perfect harmony the course of his evolution. The second cycle was the same. Now watch! Follow Me closely, for I am not telling you a "story". I am explaining to you a scientific fact that applies to the same conditions under which you exist today, and My words might show you a way to transmute them safely. Remind yourself of this now and do not just enjoy My narration as if it were a fictional occurrence.

These blessed beings of the Third Root Race next came forth of course, the natural activity of that round was also through the use of the "I AM" consciousness, to tune into the Presence of God because the outer self and the Presence were One. By tuning into the "I AM" Presence the Divine ideas for that period flowed so magnificently and in such great numbers that no one outer self in one day could fulfill them. The individuals, however, chose those which would be of the greatest blessing to the universe, for in that day the outer self was indeed "about his Father's business". It is all very beautiful! Then came the tremendous change in consciousness which created that which you call the soul - the human consciousness - that in which you live today and which "I AM" endeavoring to redeem and transmute back into your"I AM" Self again.

The Earth at that time offered to accept certain beings from other planets and systems who had not attained the development required to progress with their planet's system. All their systems were going to move on in a great cosmic push - something like that which the Earth is ordained to do within the next eighteen year period. The whole cosmic system had been delayed because the planets had perforce to wait for the laggards. The Earth and Her evolution, being of a vibratory action slower that the preceding systems, offered to take on these laggards, hoping, by contagion and by the pressure of purity within the Earth's evolution as well as that within the guardian spirits to redeem these individuals quickly. For a hundred years the priests and priestesses in the temples made application for the protection of the consciousness of the masses against impression and contagion through proximity to these recalcitrant ones of any ideas that might regis-

ter within the consciousness of the Earth People, which, up to this time, had seen and cognized nothing less than perfection.

Now, have you thought about how those laggards came to enter the Earth's atmosphere? They came through the pure bodies of women belonging to this perfect, harmonious, innocent evolution, who offered to give these souls an opportunity for embodiment upon the Earth. These women were chosen for their tremendous spiritual strength - so that the body elemental of the laggards and the heritage of good and evil tendencies might, be mitigated by the pressure of the mothers during the period of gestation and the early Earth life.

So, these individuals were born of woman and it was one of the greatest sacrifices known in any galaxy - the acceptance into their physical bodies, their consciousnesses and their homes of these individuals, whose emanation was such that it has drawn the Earth to its present condition today. Here, dear ones, is the point where you deserted your Beloved "I AM" consciousness. When these laggards, after birth, grew to a certain age and the Holy Christ Self had to release a certain amount of their karma, they began to create in thought and in feeling (secretly) forms of an impure and distorted nature. That began to spread, and, like smog over a city, it became absorbed into the atmosphere and be picked up by the more sensitive consciousnesses of the Innocents who were accustomed to drawing only good from the "I AM" Presence and from It externalizing Divine perfection. While the temptation could have been repelled, and the mind and feelings not accept or entertain those thought patterns and feelings - some among the race (in secret also) opened their consciousness to those thought patterns, allowed them play in

their feelings until finally there began to be externalized in form the beginning of the mass human imperfection (Maya).

Curiosity - rebellion against holding true to the Divine pattern and the use of thought and feeling in creation of imperfection began the building of what you call the soul around the Holy Christ Self. It is a consciousness apart from the full purity of God. The first thought that a man had that was imperfect and impure, energized by a secret feeling, was a cause, which, sent out into the armosphere, created an effect. The effect, like a boomerang, came back into the consciousness and made a record. That record was the beginning of an impression. That energy sent out in a certain manner affected the lifestream in such a way that there began to be created a shadow between the "I AM" Presence and the outer consciousness of man. The individual, endeavoring to contact the "I AM" Presence would find these tramp thoughts and feelings interfering in the line of contact, until more and more imperfect grew his creations. The conscious use of thought and feeling was temporarily lost and finally those centers got completely out of control of the "I AM" Presence and Holy Christ Self and acted independently. Anything of imperfection the individual sees and registers in the mind until it becomes energized by the feelings and becomes form is what you might call a "frankenstein" creation. Thought and feeling, acting independently of God, and dwelling upon imperfection create unhappy conditions which (forgive me) you live in for the most part today.

Through the ages the creation of thought forms, the energizing of the thought forms by feeling, and the action that follows through the flesh has built an impure etheric

consciousness. The soul, dear ones, is the accumulated consciousness of your experimental use of Life in action, reaction and tendencies. The habit and nature of your soul is determined by how you have used Life and how Life in turn has reacted in your experience age after age. Your soul endures in embodiment and out of embodiment. Your soul will continue until it is transmuted by the Immortal Victorious Three-fold Flame in your heart at which time no longer is there this shaddow self (the personality) which imagines it is real and, thinks and feels apart from the Holy Christ Self! Your soul works through each personality that you use. Today you have a name, you were born into a family, you live (if lucky) three score and ten, then you pass away as a personality, and that is no more, but the soul of you, in the etheric garment, influences each personality that you wear, and if you were to look at an unbroken stream of your lives, say, a hundred of them, or more, you would find that the soul in each personality has more or less followed the same pattern.

Now, We have to transmute millions and millions of these masquerading personalities in the matter of a few short years. We are, therefore, endeavoring to teach you how to enter again into the authority of your own "I AM" consciousness, draw Primal Life, get the directions from your "I AM" Presence and transmute the thought and feeling patterns of your soul with their etheric rumblings and tendencies. Then in the mastery and control of your own life you must begin to build anew as your God Self would have you do until there are not three - the personality, the soul and God - BUT GOD ALONE - and you are reinstated once again as the "I AM" consciousness - master of thought, feeling and action, absolutely non-recordant to the impressions of the outer selves of others, the impressions taken in so easily by the senses, dwelt upon in secret and externalized in these vicious conditions of the etheric body that manifests as disease of the soul, mind and flesh.

Contagion caused the fall of this planet Earth...Contagion of doubt, fear, impurity, lust and depression, beloved ones, is a force that you must deal with intelligently if you intend to be master by the power of your Godhead. You live in a constant sea of moving energy (to say nothing of your own soul's accumulation, and everything and everyone you contact, every paper you read, every piece of music you hear, every picture you look upon that registers in the mind and the feeling animates (often in the quiet and the dark), and adds to the accumulation of your limitation, your financial lack, your distress.

Do you know that even racial characteristics are just a matter of contagion and acceptance? I have seen lifestreams in one embodiment, even in seven years, completely remove all racial imperfections and become an expression of the pure Aryan Race in an unascended body. It can be done, it has been done. IT MUST BE DONE by those who are the teachers of the race. What is the greatest avenue of teaching? Tell me! EXAMPLE.

Now, here is the situation! You are Spirits who volunteered to guard those who fell from grace and not only did you permit them to fall, but you imitated them. So, it is to you We come first with this explanation! It is not enough for you to enjoy hearing Our words! I implore you with all the love of My heart, to DO something about it!

That simple call for the purification

of your soul does more than you realize, as those mighty currents surge through your etheric bodies. I tell you, blessed ones, I have watched the soul and know whereof I speak.

The soul of man is weighted down. Therefore it is to your souls I speak. The "I AM" of you is happy - is God-free - and has never known limitation. I AM THE SERVANT OF THE SOUL OF YOU - that part of you which agonizes, which suffers and seeks redemption - that consciousness which is the thinking, feeling self of you, and I shall not let you go until that soul is white as snow, until the hour comes, when in great relief you can say - "I and the Father are One", "I and THAT FATHER are One", yes, "I and the Father ARE ONE." It will come, it must come, for Love, (the Creative Source of the universe) cannot be denied. I embody love and the Holy Christ Self of you, speaking now through the soul's self, asks for release, for authority and for freedom. "I AM" the Christ in you come again. "I AM" THE CHRIST COME AGAIN! LET ALL THE EARTH HEAR ME - " I AM" THE CHRIST COME AGAIN!

The "second coming" is not an awe-full mystery; it is the reinstatement of the Godhead upon the throne of authority in His creation, taking over the reins of thought and feeling and again moving majestically - Embodied God, and that God-Identity I decree you shall become!

LORD MAITREYA
